Investment in bricks and mortar remain the preferred option for many Australians to achieve financial security.

Buying a home is a big decision in anybody's language and in most cases, requires a commitment to a financial institution over a long period of time, anything up to 25 or 30 years. In a relationship of this duration it is important to find a financial institution which will meet your total banking needs, one which offers you good service, flexibility, convenience, a competitive interest rate and a minimum fee structure.

Whether you are considering buying your first home, renovating or refinancing your existing home or looking to invest in a rental property, Transcomm can assist you. We believe that it will take you longer to find your home than it will take us to draw up your papers!

There are money saving benefits with a Transcomm loan

There are no fees if you pay out your loan early or make additional repayments. And remember, the faster you repay your loan, the less interest you will pay and the more you will save.

Repayments can be automatically deducted from your lifestyle account or credited directly from your payroll. You will not have to worry about forgetting a payment.

We will send you a statement regularly so you can watch your equity in your home increase with each repayment.

This insurance can be readily arranged at the time of application. Easy pay-by-the-month instalments are available. Our interest as mortgagee must be noted on the insurance policy.
